19 PLACE OF BURIAL OR REMOVAL Chesterville Md. DATE OF BURIAL Nov. 18, 1924

20 UNDERTAKER John A. Tobin & Son ADDRESS Millington Md.

MARGIN RESERVED FOR BINDING. WRITE PLAINLY, WITH UNFADING INK--THIS IS A PERMANENT RECORD.

N. B.--Every item of information should be carefully supplied. ACE should be stated EXACTLY, PHYSICIANS should state CAUSE OF DEATH in plain terms so that it may be properly classified. Exact statement of OCCUPATION is very important. See instructions on back of certificate.

REVISED UNITED STATES STANDARD CERTIFICATE OF DEATH

(Approved by U. S. Census and American Public
Health Association.)

Statement of Occupation—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer or Planter, Physician, Composer, Architect, Locomotive engineer, Civil engineer, Stationary fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) *Spinner*, (b) *Cotton mill*; (a) *Salesman*, (b) *Grocery*; (a) *Foreman*, (b) *Automobile factory*. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification as *Day laborer, Farm laborer, Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife, Housework*, or *At Home*, and children, not gainfully employed, as *At school*, or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant, Cook, Housemaid*, etc. If the occupation has been changed, or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus; *Farmer (retired 6 yrs)*. For persons who have no occupation whatever, write *None*.

Statement of Cause of Death—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid Pneumonia"); *Lobar pneumonia*, *Bronchopneumonia* ("Pneumonia,"

unqualified, is indefinite); *Tuberculosis of lungs, meningitis, peritoneum*, etc., *Carcinoma, Sarcoma*, etc., of (name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasms); *Measles*; *Whooping cough*; *Chronic valvular heart disease*; *Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), 29 ds.; *Bronchopneumonia* (secondary), 10 ds. Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Delirium" ("Congenital," "Senile," etc.), "Dropsy," "E. haustion," "Heart failure," "Hæmorrhage," "Insanition," "Marasmus," "Old Age," "Shock," "Uræmia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage as "PUERPERAL septicaemia," "PUERPERAL peritonitis," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL or HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning*; *Struck by railway train—accident*; *Revolver wound of head—homicide*; *Poisoned by carbolic acid—probably suicide*. The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis, tetanus*) may be stated under the head of "contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)

If this certificate is looked over thoroughly and all questions answered in detail, it will prevent further correspondence. All the data is essential and must be obtained before the certificate is permanently filed.

UNITED STATES STANDARD CERTIFICATE OF DEATH

Statement of occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. Make some entry in this section for every person aged 10 years or over. If the deceased had retired from business, report the occupation prior to retirement. Children not gainfully employed may be returned as at school or at home. For a woman whose only occupation was that of home housework, write housewife in answer to Question 8 and own home in answer to Question 9. For a person engaged in domestic service for wages, however, designate the occupation by the appropriate terms, as servant—private family, cook—hotel, etc. For a person who had no occupation whatever write none.

To be complete, an occupation return must state:

- 8.—The trade, profession, or particular kind of work done.
- 9.—The industry or business in which the work was done.
- 10.—The month and year the deceased last worked at the occupation.
- 11.—The number of years the deceased followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employee," "worker," "operative," etc. Find out the particular kind of work done and return that, as spinner, weaver, etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as grocery store, soap factory, cotton mill, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as civil engineer, mechanical engineer, mining engineer, stationary engineer, etc. Avoid the term "laborer" when a more precise statement of the occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as carpenter, painter, machinist, etc. Distinguish carefully between retail merchants and wholesale merchants. A person who sells goods should be called a salesman and not a clerk.

Statement of cause of death.—Cause of death means the disease, injury, or complication which causes death, not the mode of dying, e. g., heart failure, asphyxia, asthenia, etc. As principal cause name the disease or injury causing death. As related causes, name earlier morbid conditions, if any, related to the principal cause and any important complication of the principal cause. Under other contributory causes of importance, name other important diseases or injuries. Examples:

Example I

The principal cause of death and related causes of importance were as follows:

	Date of onset
Arteriosclerosis	1915
Chronic interstitial nephritis	1921
Cerebral hemorrhage	July 5, 1927

Other contributory causes of importance:

Gallstones	May 1, 1923
------------	-------------

Example II

The principal cause of death and related causes of importance were as follows:

	Date of onset
Attack of epilepsy	1 week ago
Run over by street car	1 week ago
Peritonitis	3 days ago

Other contributory causes of importance:

Gastroenteritis	1 year

UNITED STATES STANDARD CERTIFICATE OF DEATH

Statement of occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. Make some entry in this section for every person aged 10 years or over. If the deceased had retired from business, report the occupation prior to retirement. Children not gainfully employed may be returned as at school or at home. For a woman whose only occupation was that of home housework, write housewife in answer to Question 8 and own home in answer to Question 9. For a person engaged in domestic service for wages, however, designate the occupation by the appropriate terms, as servant—private family, cook—hotel, etc. For a person who had no occupation whatever write none.

To be complete, an occupation return must state:

- 8.—The trade, profession, or particular kind of work done.
- 9.—The industry or business in which the work was done.
- 10.—The month and year the deceased last worked at the occupation.
- 11.—The number of years the deceased followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employee," "worker," "operative," etc. Find out the particular kind of work done and return that, as spinner, weaver, etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as grocery store, soap factory, cotton mill, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as civil engineer, mechanical engineer, mining engineer, stationary engineer, etc. Avoid the term "laborer" when a more precise statement of the occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as carpenter, painter, machinist, etc. Distinguish carefully between retail merchants and wholesale merchants. A person who sells goods should be called a salesman and not a clerk.

Statement of cause of death.—Cause of death means the disease, injury, or complication which causes death, not the mode of dying, e. g., heart failure, asphyxia, asthenia, etc. As principal cause name the disease or injury causing death. As related causes, name earlier morbid conditions, if any, related to the principal cause and any important complication of the principal cause. Under other contributory causes of importance, name other important diseases or injuries. Examples:

Example I

The principal cause of death and related causes of importance were as follows:	Date of onset
<i>Arteriosclerosis</i>	<i>1915</i>
<i>Chronic interstitial nephritis</i>	<i>1921</i>
<i>Cerebral hemorrhage</i>	<i>July 5, 1927</i>
Other contributory causes of importance:	
<i>Gallstones</i>	<i>May 1, 1923</i>

Example II

The principal cause of death and related causes of importance were as follows:	Date of onset
<i>Attack of epilepsy</i>	<i>1 week ago</i>
<i>Run over by street car</i>	<i>1 week ago</i>
<i>Peritonitis</i>	<i>3 days ago</i>
Other contributory causes of importance:	
<i>Gastroenteritis</i>	<i>1 year</i>

ADDITIONAL SPACE FOR FURTHER STATEMENTS BY PHYSICIAN

N B.--Every item of information should be carefully supplied. ACE should be stated EXACTLY, PHYSICIANS should state CAUSE OF DEATH in plain terms so that it may be properly classified. Exact statement of OCCUPATION is very important. See instructions on back of certificate.

CERTIFICATE OF DEATH

Health Association.)

Statement of Occupation—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer* or *Planter*, *Physician*, *Composer*, *Architect*, *Locomotive engineer*, *Civil engineer*, *Stationary fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) *Spinner*, (b) *Cotton mill*; (a) *Salesman*, (b) *Grocery*; (a) *Foreman*, (b) *Automobile factory*. The individual worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Painter," etc., without more precise specification as *Day laborer*, *Farm laborer*, *Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife*, *Housework*, or *At Home*, and children, not gainfully employed, as *At school*, or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant*, *Cook*, *Housemaid*, etc. If the occupation has been changed, or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus; *Farmer* (retired 6 yrs.). For persons who have no occupation whatever, write *None*.

Statement of Cause of Death—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid Pneumonia"; ^{about} *pneumonia*. *Bronchopneumonia* ("Pneumonia,"

unqualified, is indefinite; *Tuberculosis of lungs, meninges, peritoneum, etc.*, *Carcinoma, Sarcoma, etc.*, of (name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasms); *Measles*; *Whooping cough*; *Chronic valvular heart disease*; *Chronic interstitial nephritis, etc.* The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles (disease causing death, 29 ds.; Bronchopneumonia (secondary), 10 ds.* Never report mere symptoms or terminal conditions, such as "Asthma," "Anæmia" (merely symptom-atic), "Atrophy," "Collapse," "Coma," "Convulsions," "Delirium" ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Hæmorrhage," "Hæmiplegia," "Hysteria," "Insanity," "Intoxication," "Paralysis," "Pneumonia," "Rheumatism," "Stomachicæ," "Tuberculosis," "Typhoid," "Typhus," "Zoster," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage as "PUERPERAL, septicæmia," "PUERPERAL peritonitis," etc. State cause for which surgical operation was undertaken. FOR VIOLENT DEATHS state MEANS OF INJURY and quality as ACCIDENTAL, SUICIDAL, or HOMICIDAL, and as probably such, if impossible to determine definitely. Examples: *Accidental drowning, Struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.* The nature of the injury, as fracture of skull, and consequences (e. g., *septicaemia, tetanus*) may be stated under the head of "contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)

If this certificate is looked over thoroughly and all questions answered in detail, it will prevent further correspondence. A letter data is essential and must be obtained before the certificate be permanently filed.

N. B.--Every item of information should be carefully supplied. ACE should be stated EXACTLY, PHYSICIANS should state CAUSE OF DEATH in plain terms so that it may be properly classified. Exact statement of OCCUPATION is very important. See instructions on back of certificate.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as grocery store, soap factory, cotton mill, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as civil engineer, mechanical engineer, mining engineer, stationary engineer, etc. Avoid the term "laborer" when a more precise statement of the occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as carpenter, painter, machinist, etc. Distinguish carefully between retail merchants and wholesale merchants. A person who sells goods should be called a salesman and not a clerk.

Statement of cause of death.—Cause of death means the disease, injury, or complication which causes death, not the mode of dying, e. g., heart failure, asphyxia, asthenia, etc. As principal cause name the disease or injury causing death. As related causes, name earlier morbid conditions, if any, related to the principal cause and any important complication of the principal cause. Under other contributory causes of importance, name other important diseases or injuries. Examples:

Example I

The principal cause of death and related causes of importance were as follows:	Date of onset
<i>Arteriosclerosis</i>	<i>1915</i>
<i>Chronic interstitial nephritis</i>	<i>1921</i>
<i>Cerebral hemorrhage</i>	<i>July 5, 1927</i>
Other contributory causes of importance:	
<i>Gallstones</i>	<i>May 1, 1923</i>

Example II

The principal cause of death and related causes of importance were as follows:	Date of onset
<i>Attack of epilepsy</i>	<i>1 week ago</i>
<i>Run over by street car</i>	<i>1 week ago</i>
<i>Peritonitis</i>	<i>3 days ago</i>
Other contributory causes of importance:	
<i>Gastroenteritis</i>	<i>1 year</i>

Where did injury occur? _____ (Specify city or town, county and State)

Specify whether injury occurred in INDUSTRY, in HOME, or in PUBLIC PLACE.

Manner of injury _____

Nature of injury _____

24. Was disease or injury in any way related to occupation of deceased?

If so, specify

(Signed) Dr. Wm. Richmond M. D.(Address) Chesapeake, Md.

UNITED STATES STANDARD CERTIFICATE OF DEATH

Statement of occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. Make some entry in this section for every person aged 10 years or over. If the deceased had retired from business, report the occupation prior to retirement. Children not gainfully employed may be returned as at school or at home. For a woman whose only occupation was that of home housework, write housewife in answer to Question 8 and own home in answer to Question 9. For a person engaged in domestic service for wages, however, designate the occupation by the appropriate terms, as servant—private family, cook—hotel, etc. For a person who had no occupation whatever write none.

To be complete, an occupation return must state:

- 8.—The trade, profession, or particular kind of work done.
- 9.—The industry or business in which the work was done.
- 10.—The month and year the deceased last worked at the occupation.
- 11.—The number of years the deceased followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employee," "worker," "operative," etc. Find out the particular kind of work done and return that, as spinner, weaver, etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as grocery store, soap factory, cotton mill, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as civil engineer, mechanical engineer, mining engineer, stationary engineer, etc. Avoid the term "laborer" when a more precise statement of the occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as carpenter, painter, machinist, etc. Distinguish carefully between retail merchants and wholesale merchants. A person who sells goods should be called a salesman and not a clerk.

Statement of cause of death.—Cause of death means the disease, injury, or complication which causes death, not the mode of dying, e. g., heart failure, asphyxia, asthenia, etc. As principal cause name the disease or injury causing death. As related causes, name earlier morbid conditions, if any, related to the principal cause and any important complication of the principal cause. Under other contributory causes of importance, name other important diseases or injuries. Examples:

Example I

The principal cause of death and related causes of importance were as follows:

	Date of onset
Arteriosclerosis	1915
Chronic interstitial nephritis	1921
Cerebral hemorrhage	July 5, 1927

Other contributory causes of importance:

Gallstones	May 1, 1923
------------	-------------

Example II

The principal cause of death and related causes of importance were as follows:

	Date of onset
Attack of epilepsy	1 week ago
Run over by street car	1 week ago
Peritonitis	3 days ago

Other contributory causes of importance:

Gastroenteritis	1 year
